

BUD-PAK — A BRIEF PROFILE

KEY PERSONNEL

Mark Mitchell General Manager
Ross Waller Design Manager
Jim Lambros Sales Manager
Jayson Cook Sales Engineer

PRODUCT RANGE

Packaging Machinery

- ☼ Net and gross weight bagging scales
- ☼ Automatic bagging machines
- ☼ Net and gross weight valve bag fillers
- ☼ Automatic valve bag placers
- ☼ Bag automatic palletisers
- ☼ Robot palletisers
- ☼ Automatic stretch wrappers and top sheet applicators
- ☼ Net and gross weight FIBC filling systems
- ☼ Retail pack high speed net weighing systems with VFFS, carton, tub and pre-made bag filling systems

Materials Handling

- ☼ Bag transport conveyors
- ☼ Bag cleaning conveyors
- ☼ Bag settling and flattening conveyors
- ☼ Automatic pallet dispensers and reclaimers
- ☼ Conveyors, turntables, transfer and travelling systems for filled and empty automatic pallet handling
- ☼ Truck and rail car bag loading systems

Ancillary Equipment in Turnkey Supply

- ☼ In-line check weighers and reject systems
- ☼ In-line metal detectors
- ☼ Bag Coders

COMPANY PROFILE

Bud-Pak is wholly owned and operated in Australia and since incorporation in 1974, the company has established a reputation as a leading manufacturer and supplier of quality packaging machinery and 'turn-key' packaging systems.

Our equipment range includes all the major components of a modern automatic packaging line - weighers, baggers, bag handling, palletising and wrapping, providing our customers with all the advantages of single-source supply.

Our experience includes all major dry product groups - sugars, rice, plastics, fertilisers, chemicals, grains, pet food, flour products, stock feeds, cement products, salt, detergents, milk and mineral powders.

Retail pack weighers have been developed for pack sizes of 25g to 10kg, at rates up to 100 packs per minute and designed to interface with automatic packing equipment such as VFFS and cartoners. Tub and can handling systems up to 80 per minute are included in our manufactured range.

The semi-bulk market is provided for with a manufactured range of FIBC and Pallecon filling systems with a choice of automation options and feed systems to suit the application.

We are proud agents for the Fuji Yusoki range of palletising robots. Fuji is a major international supplier, with an impressive range of machines in speed and capacity. Bud-Pak combines the appropriate robot with our manufactured support equipment for a purpose-designed complete operating system.

Bud-Pak is also proudly associated with other world-leading packaging companies such as Newlong, AccuPak, Technipes, Elpack, Ixia, Imanpack, and Spanpak.

BRANCH OFFICES

Bud-Pak is a wholly owned subsidiary of Accuweigh Pty Ltd, Australia's largest industrial weighing company. Service is available through Accuweigh who have branch offices in all states of Australia.
