

# **SENIOR A AUTOMATIC STRETCH WRAPPER**

## **DESCRIPTION**

The Senior A is a remote-controlled stretch wrapper which automatically hooks, cuts and welds the film to a fully loaded pallet. The machine has been designed with relocation in mind and can be moved easily.

## **FEATURES**

- Ø1,650mm Round Turntable
- Suitable for all Types of Stretching Film
- Equipped with Remote Control for Starting and Stopping
- Powered Film Pre-Stretching
- Variable Speed on Carriage and Turntable
- Progressive Start and Exact Stop on Turntable to Ensure Pallet Alignment
- Film Holding Clip and Automatic Cutting Arm
- SIEMENS S7-200 PLC Control
- Harmonics Suppressor Line Filter
- Automatic Pallet Height Detection by Photocell
- Double Wrapping Cycle (Simple and Double)
- Rainproof Wrapping Cycle
- Independently Programmable Reinforcement Reel Laps on Top and Bottom
- Hot Welding Film Cutting System
- Maximum Pallet Height: 2,400mm
- Maximum Pallet Size: 1,200mm x 1,000mm
- Maximum Pallet Weight: 2,000kg
- Power Required: 380VAC or 220VAC
- Maximum Power Consumption: 2kW
- Total Weight: 460kg
- Pneumatic Air Pressure: 6 bar
- Air Consumption: 11 litres/minute

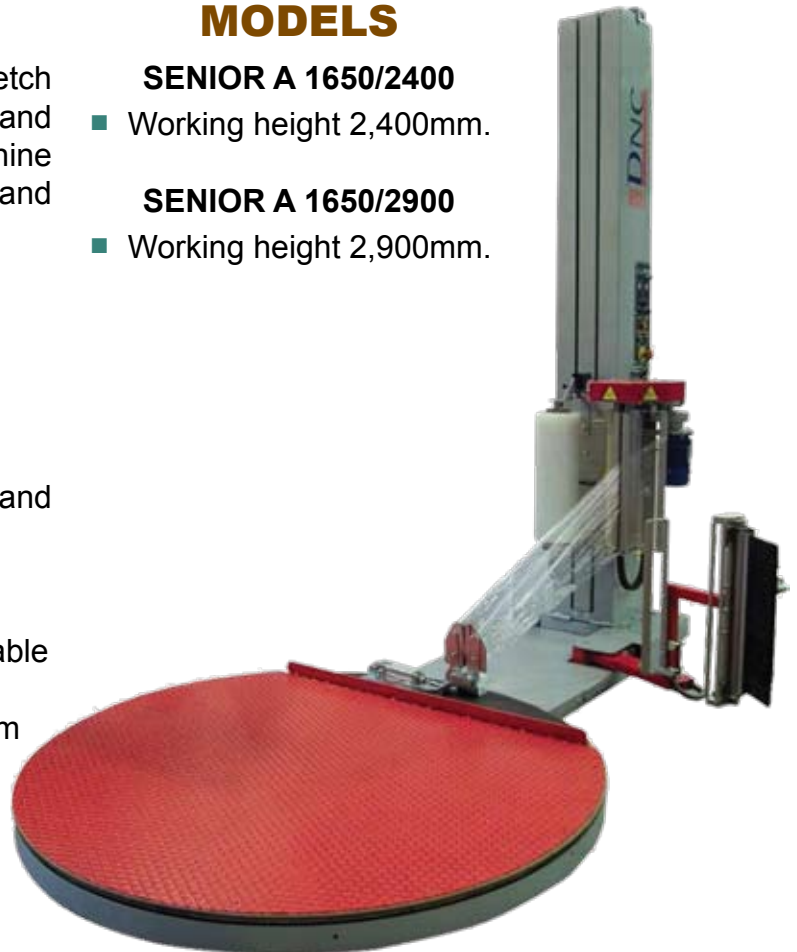

## **MODELS**

### **SENIOR A 1650/2400**

- Working height 2,400mm.

### **SENIOR A 1650/2900**

- Working height 2,900mm.

## **OPTIONS**

- Ramp to Access Platform
- Pit Frame for Floor Embedding
- Powered Top Platen to Stabilize Load
- Hot-Welding on Load Film Cutting System
- Automatic Top Film Sheet Dispenser
- Film Narrower
- 2m Safety Interlock
- Forklift Crash Protection
